

REMARKS

Claims 23-27 are presently pending. Claims 1-8 are cancelled without prejudice. Claims 9-21 are withdrawn from consideration. Claim 22 is cancelled without prejudice. Claims 23-27 are added.

Claims 1-5, 8, and 22 were rejected under 35 U.S.C. § 103(a) as being obvious from Konuma. Assignee has cancelled these claims.

Claim 23 is added. Assignee respectfully submits that claim 23 is allowable, at least because the cited prior art does not teach or fairly suggest "setting a timer with a predetermined period of time responsive to a vertical synchronization signal, comparing timing data associated with the new display parameters to a time reference, after the expiration of the predetermined period of time and transmitting another signal to the display engine if the timing data associated with the new display parameters is within a predetermined range from the timing reference" as recited (among other limitations) therein.

CONCLUSION

For the foregoing reasons, each of the pending claims, claims 1-8 and 22 should be allowed. Accordingly, the Application is now in a condition for allowance and Examiner is requested to pass the case to issuance.

RESPECTFULLY SUBMITTED
